<https://github.com/Abdiev003>

Over the years, I've worked across frontend, backend, and mobile development, which has helped me become a well-rounded and adaptable engineer. I'm comfortable jumping into any part of the stack and collaborating with different teams to deliver scalable, user-friendly products.

PROFESSIONAL EXPERIENCE

Frontend Engineer

Sigma LLC

January 2025 - Present

At Sigma, I work as a Frontend Engineer, building modern, scalable interfaces using Next.js (TypeScript), TailwindCSS, and shadcn/ui.

I collaborate closely with the team to implement frontend features, connect to backend APIs, and ensure seamless user experiences across the platform.

Software Developer

Ekip.co

December 2021 - January 2024

At Ekip.co, I worked as a Software Developer, developing scalable backend systems with Node.js, NestJS, and PostgreSQL, optimizing performance with Redis, and deploying applications on GCP with Firebase integrations. I also collaborated with teams to design REST & GraphQL APIs and deliver user-focused solutions.

Backend Developer

Doruk Solutions, Inc.

September 2021 - March 2022

At Doruk Yazılım Çözümleri, I worked as a Back-end Developer, designing and implementing backend services with Node.js, NestJS, and MongoDB, deploying applications via Docker and AWS for scalability and reliability, and collaborating with frontend teams using Angular to deliver seamless integrations.

EDUCATION

Backend Development Bootcamp

Tech Academy

2020-2021

SKILLS & PROFICIENCIES

- HTML, CSS, jQuery, NodeJS, Python, React, Nextjs, Nestjs
- Teamwork, multitasking, and attention to detail
- Software and web development

LANGUAGES

- English
- Turkish
